## When The Music Dies – Sabina Babayeva

You, you are my best friend You are my everything, so don't leave me now You, you are the best of me The reason that I believe, so don't leave me now And I try to keep us alive But you're cold, cold, cold Now every second that my heart skips, it ends But I still wanna keep us alive But it's cold, cold, cold, cold when the music dies It's all black and white and there's no sunrise When the music dies No you, you can't even look at me Still not gonna speak to me And I try to keep us alive But you're cold, cold, cold Now every second that my heart skips, it ends But I try to keep us alive But it's cold, cold, cold, cold When the music dies It gets cold and there's no sunrise So cold Now every second that my heart skips, it ends Oh... try to keep us alive But you're cold, cold, so cold Every second my heartbeat ends Still I try to keep us alive But you're cold, cold, cold When the music dies
