Seamless – Sabrina Carpenter

Good morning, you're leaving I'll see you in the evening My best friend till the end My better half no pretend Our language is sacred No people try to solve it New adventures on the way You and me together Take on the world forever I know all your secrets And I promise you I'm gonna keep them I'll be there when you are feeling clueless You and me, oh yeah we're seamless Woah oh, yeah, woah oh We're klutzy, but so lucky That I always have you to catch me We're partners in crime You're stuck with me your whole life So different, out of our minds From a planet that's hard to find Every second every day You and me together Take on the world forever I know all your secrets And I promise you I'm gonna keep them I'll be there when you are feeling clueless You and me, oh yeah we're seamless You're right by my side whenever I need you Through the hardest times I'll be there for you At the crack of dawn when the moon is gone I won't be hard to find 'Cause you and me, oh yeah we're seamless You and me together Take on the world forever I know all your secrets

And I promise you I'm gonna keep them I'll be there when you are feeling clueless You and me, oh yeah we're seamless Woah oh, woah oh
