

# Smoke and Fire – Sabrina Carpenter

Oh, oh, our love is running into a burning building  
Oh, oh, our love is scattered ash with a burnt up feeling  
Feel the heat so we started running  
You know you saw it coming  
But the memories are still in my mind  
Burning like smoke and fire

Rumors spread like wildfire  
I held a strong ground  
But I've been burning down  
Cause it's like fire  
Is all I hear about  
And we are fading out  
Don't wanna turn out the light  
But it's like

I'm no firefighter  
I just need to breathe tonight  
So sound the alarm  
And there goes the night

Oh, oh, our love is running into a burning building  
Oh, oh, our love is scattered ash with a burnt up feeling  
Feel the heat so we started running  
You know you saw it coming  
But the memories are still in my mind  
Burning like smoke and fire

Secrets in a small town  
They always get around  
But the flame has been put out  
And I am hearing  
All this small talk  
They whisper as I walk  
In a house that's boarded up  
So good luck

I'm no firefighter  
I just need to breathe tonight  
So sound the alarm  
And there goes the night

Oh, oh, our love is running into a burning building  
Oh, oh, our love is scattered ash with a burnt up feeling  
Feel the heat so we started running  
You know you saw it coming  
But the memories are still in my mind  
Burning like smoke and fire

Smoke and fire  
Smoke and fire  
Don't you know that  
If there's smoke there's fire  
Smoke there's fire  
Smoke there's fire  
Now, now  
Oh, oh, and now it's over  
Oh, oh, I'm getting colder  
Oh, oh, and it's the feeling  
Of running into a burning building

Rumors spread like wildfire  
I held a strong ground  
But I've been burning down

Oh, oh, our love is running into a burning building  
Oh, oh, our love is scattered ash with a burnt up feeling  
Feel the heat so we started running  
You know you saw it coming  
But the memories are still in my mind  
Burning like smoke and fire

Smoke and fire  
Smoke and fire  
Don't you know that  
If there's smoke there's fire

Smoke there's fire

Smoke there's fire

Now, now

Oh, oh, and now it's over

Oh, oh, I'm getting colder

Oh, oh, I'm so tired

Burning like smoke and fire
