

# Flower of the Universe – Sade

They come to see  
The fire burning In your heart  
They want to witness  
This love from the start  
They hear you when you cry  
This love is far and wide  
When you smile the stars align  
Flower of the universe  
And child of mine  
Oh  
When you sleep softly the angels come  
Like diamonds, like my love  
They want to know it's true  
There's someone in the world, lovely as you  
They hear you when you cry  
This love is far and wide  
When you smile the stars align  
Flower of the universe  
And child of mine  
Oh  
Oh  
Oh
