

Invisible Dress – Sanah

I've been here for some time now
I know now
That I will
Be forever in this place
But your voice it keeps me breathing
Forgiving
Believing
Maybe someday it will change
Uuu Oh No
Uuuu I'm invisible
Uuuu the don't see my face
Don't see my face
It stays the same
An invisible dress
Carry my heart
A way down low
Feel like I drown
An invisible heat
Let me out please
I care about you
You don't care about me
An invisible dress
Carry my heart
A way down low
Feel like I drown
An invisible heat
Let me out please
I care about you
You don't care about me
I look up into thy sky now
And I found
That my eyes
They're more blind everyday
Can you love me for who I am
I'm trying
To hide it

The sadness in my face
Uuu Oh No
Uuuu I'm invisible
Uuuu the don't see my face
Don't see my face
It stays the same
An invisible dress
Carry my heart
A way down low
Feel like I drown
An invisible heat
Let me out please
I care about you
You don't care about me
An invisible dress
Carry my heart
A way down low
Feel like I drown
An invisible heat
Let me out please
I care about you
You don't care about me
