

Secret (Kally's Mashup) – Sarai Meza, Maia Reficco

Stand straight
Don't look down
Hair back and never frown
Put on your best face, the perfect gown
When you take the stage
Now, wig on
Nails are blue
Red cheeks and crazy shoes
Our touch in neon, they'll have no clue
That the game goes on
And on
Nobody knows 'bout the video girl
Let's keep it, our little secret, secret
I gotta know you won't tell the world
Cross your heart, you will keep it secret
I will shine when it's time,
So let's keep our little secret, secret
Now that you know the truth
I have to trust in you
My hand in your hand
We'll promise to never break this pact
No, I never meant to hide
Who I am inside
But now it's happened, so can we try
To keep it going on and on?
Nobody knows 'bout the video girl
Let's keep it, our little secret, secret
I gotta know you won't tell the world
Cross your heart, you will keep it secret
I will shine when it's time,
So let's keep our little secret, secret
No one knows me like you do, no
And now you know my secret too
Guess that's what best friends do
And we're in this thing together

Nobody knows 'bout the video girl
Let's keep it, our little secret, secret
I gotta know you won't tell the world
Cross your heart, you will keep it secret
I will shine when it's time
I'll shine 'till it's time
Let's keep our little secret, secret
