

# Don't cry to night – Savage

If you never, never let me go with every  
Melody  
And you often were at leaving just my life  
If you're really not to tug an end  
Lie to my fantasy, me too  
When you need to get another chance today  
For a thunder is the past a path we are human  
being  
Do you rather like to feel what is my life  
If you're really going to listen baby  
At my fantasy, and me  
Don't let me go  
Don't cry tonight  
Don't let me go  
Don't cry tonight  
Just a random access memories of dreams  
As you're hangin' upon me, do you love  
Melody?  
Thief of golden toys to an upset time away  
As we're human being at last we have the  
melody, we too  
Don't let me go  
Don't cry tonight  
Don't let me go  
Don't cry tonight  
Don't let me go  
Don't cry tonight  
Don't let me go  
Don't cry tonight  
Don't let me go  
Don't cry tonight  
Don't let me go  
Don't cry tonight  
Don't let me go  
Don't cry tonight
