Only You – Savage

Only you
When i really got nothing to do
Can't be true
Only you
When i'm looking for somebody new
You're the clue
Only change my mind
When i feel so blind
Then you make me see
Love is free
Only you
When i look at your eyes in the blue
Love me too
Only you
When your teardrops are lit by the moon
Laugh too soon
Only change my mind
When i feel so blind
Then you make me see
Love is free
Don't push me aside my love's alive
Don't leave me to die you will survive
You hold me so tight turn off the light
It all seems so right
Only you
When i really got nothing to do
Can't be true
Only you
When i look at your eyes in the blue
Love me too
Only change my mind
When i feel so blind
Then you make me see
Love is free
Don't push me aside my love's alive
Don't leave me to die you will survive

You hold me so tight turn off the light
It all seems so right
Don't push me aside my love's alive
Don't leave me to die you will survive
You hold me so tight turn off the light
It all seems so right
Don't push me aside my love's alive
Don't leave me to die you will survive
You hold me so tight turn off the light
It all seems so right
