

Follow Your Heart – Scorpions

Have you ever climb the mountain
Have you ever across the sea
Take a look around the corner
And listen to
Your heart beat
Have you ever touch the rainbow
Take a ride on a ferris wheel
Take one step to start a journey
It's up to you
To make it real
This is the time for yourself
To be free
You gotta follow your heart
This is the time in your life
And it's never too late
To see the light in the dark
You gotta follow your heart
Walking far away horizons
You'll never walk alone
To be in home
When your heart is a million miles
Away from home
This is the time for yourself
To be free
You gotta follow your heart
This is the time in your life
And it's never too late
To see the light in the dark
You gotta follow your heart
Show me the wind who longs the way
Is this the only road to go
Like brings me down
Like takes me up
It only, only have knows
This is the time for yourself
To be free

You gotta follow your heart
This is the time in your life
And it's never too late
To see the light in the dark
You gotta follow your heart
You gotta follow your heart
