

# **This Song Is for You, Benny – Selena Gomez**

I used to write songs in the dark  
Wishing someone would hear my heart  
But you walked in, no need for sound  
You read me like a sacred vow  
You never asked me to be less  
Never doubted my quiet strength  
And in your arms I finally knew  
The kind of love that pulls me through  
This song is for you, Benny  
For the calm you bring to my storm  
For choosing me when I was breaking  
And seeing me as more  
No spotlight, no grand display  
Just a love that chooses to stay  
So here's my truth, wrapped in melody —  
This song is for you, Benny  
You see the light behind my eyes  
Even when I'm in disguise  
You never flinch when I fall apart  
You hold my chaos like it's art  
You don't fix me, you don't try  
You just listen, side by side  
And every day you show me how  
Real love lives in the here and now  
This song is for you, Benny  
For the calm you bring to my storm  
For choosing me when I was breaking  
And seeing me as more  
No spotlight, no grand display  
Just a love that chooses to stay  
So here's my truth, wrapped in melody —  
This song is for you, Benny  
I've sung of pain, I've sung of loss  
But this time love's the only cause  
It's gentle, steady, not pretend  
With you, I never have to bend

This song is for you, Benny  
For every silent word you say  
For every fear you helped me quiet  
And every night you chose to stay  
No spotlight, no grand display  
Just your love lighting the way  
So here's my truth, wrapped in melody —  
This song is for you, Benny
