

# Elect The Dead – Serj Tankian

Arms are raised above the sky,  
But all I want is me

You are there beside the night  
But all I want is me  
All I want is me

Love we know  
Comes from inside,  
But all I want is me,  
All I want is me

Death we know  
Comes to us alive  
But all I want is you,

Death we know  
Comes to all of us alive  
But all I want is you,  
All I need is you,  
All I want
