P

Elect The Dead – Serj Tankian

Arms are raised above the sky, But all I want is me

You are there beside the night But all I want is me All I want is me

Love we know Comes from inside, But all I want is me, All I want is me

Death we know Comes to us alive But all I want is you,

Death we know Comes to all of us alive But all I want is you, All I need is you, All I want
