

House Practice – Shane Wirkes

Whisper softly
See me hiding
Would you seek me again
Asked you kindly
Sleep won't find me
I'm alone once again
And I told you I wasn't here
But in the middle of the night you'd appear
With a hole in your head
And I told you I wasn't here
But in the middle of the night you'd appear
With a hole in your head saying
How could this be
You were drowning
Tried to warn me
With your last breath of air
When I look into the mirror
My face will not appear
And I told you I wasn't here
But in the middle of the night you'd appear
With a hole in your head
I told you I wasn't here
But in the middle of the night you'd appear
With a hole in your head saying
How could this be
I told you I wasn't here
But in the middle of the night you'd appear
With a hole in your head
And I told you I wasn't here
But in the middle of the night you'd appear
With a hole in your head saying
How could you let this happen
