

# House Practice – Shane Wirkes

Whisper softly  
See me hiding  
Would you seek me again  
Asked you kindly  
Sleep won't find me  
I'm alone once again  
And I told you I wasn't here  
But in the middle of the night you'd appear  
With a hole in your head  
And I told you I wasn't here  
But in the middle of the night you'd appear  
With a hole in your head saying  
How could this be  
You were drowning  
Tried to warn me  
With your last breath of air  
When I look into the mirror  
My face will not appear  
And I told you I wasn't here  
But in the middle of the night you'd appear  
With a hole in your head  
I told you I wasn't here  
But in the middle of the night you'd appear  
With a hole in your head saying  
How could this be  
I told you I wasn't here  
But in the middle of the night you'd appear  
With a hole in your head  
And I told you I wasn't here  
But in the middle of the night you'd appear  
With a hole in your head saying  
How could you let this happen
