

# Jupiter 4 – Sharon van Etten

Our love's for real  
How'd it take a long, long time  
To let us feel  
Try to relate in my state  
And the aura around me says  
My love is for real  
Touching your face  
How'd it take a long, long time  
To be here  
Turning the wheel on my street  
My heart still skips a beat  
It's echoing, echoing, echoing, echoing,  
Echoing, echoing  
Baby, baby, baby  
I've been searching for you  
I want to be in love  
Baby, baby, baby  
I've been waiting, waiting,  
Waiting my whole life  
For someone like you  
It's true that everyone would  
Like to have met  
A love so real  
A love so real  
Baby, baby, baby  
I've been searching for you  
I want to be in love  
Baby, baby, baby  
I've been waiting, waiting,  
Waiting my whole life  
For someone like you  
It's true that everyone would  
Like to have met  
A love so real  
A love so real

A love so real  
My love is so real
