

## Free me – Sia

I don't want to hold your gaze  
I'm scared what I might see there  
Found myself in this place  
And I'm a burning fire  
Oh, peace may come  
I hope it won't take long  
Just a faith I cannot see, oh  
Bring me home  
I'm in here all along  
Just me and my melody  
So, free me  
Oh, free me  
From this pain I've been running from  
I'm tired and I'm free falling  
Free me  
Oh, free me  
From this shame I've been running from  
I'm lost and I am calling you  
I'm lost and I am calling  
I'm lost and I am calling  
I don't have a way back down  
I'm stepping even further  
Take my hand and turn me around  
I'm listening to myself  
Oh, peace may come  
I hope it won't take long  
Just a faith I cannot see  
Bring me home  
I'm in here all along  
Just me and my melody  
So free me  
Oh, free me  
From this pain I've been running from  
I'm tired and I'm free falling  
Free me  
Oh, free me

From this shame I've been running from  
I'm lost and I am calling you  
I'm calling you  
And though I can't undo  
All the things I put you through  
I can't take your hand  
Admit that I don't have a plan  
Only you  
Free me  
Free me  
From this pain I've been running from  
I'm tired and I'm free falling  
Free me  
Free me  
From this shame I've been running from  
I'm lost and I am calling you  
Free me  
I'm lost and I am calling  
Free me  
Free me  
From this shame I've been running from  
I'm lost and I am calling you
