

I Forgive You – Sia

I felt the life, felt the life
Slip out of me
Black as the night, as the night
Blue as the sea, yeah
I would done anything
Would given everything for you
I would done anything
Would given everything for you
I forgive you, you know now what you have done
I forgive you, now it's time for me to move on
I forgive you, you could not see right from wrong
Oh I and I love you always in my heart you'll live on
You'll live on
Good people sing when your name's
Unspoken, -en, ooh
You broke my heart, broke my heart
But it's still beating
I would done anything
Would given everything for you
I would done anything
Would given everything for you
I forgive you, you know now what you have done
Oh, I forgive you, now it's time for me to move on
I forgive you, you could not see right from wrong
Oh I and I love you always in my heart you'll live on
You'll live on
