

# Stop The Rain In The Night – Silent Circle

Cold as ice with a heart full of lies  
You're goin' your own way  
I wait on the side in the heat of the night  
It is hard to stay  
Every day, every night  
We're bound up in a hard fight  
Joy and tears side by side  
That's our life  
Stop the rain in the night  
In my heart deep inside  
Hold me  
I need you  
Stop the rain in the night  
Our love can't survive  
It's now or never  
Stop the rain in the night  
You and me  
It's a tragedy, with an open end  
Take a chance for a new romance  
We're cryin' for love  
Every day, every night  
We're bound up in a hard fight  
Joy and tears side by side  
That's our life  
Stop the rain in the night  
In my heart deep inside  
Hold me  
I need you  
Stop the rain in the night  
Our love can't survive  
It's now or never  
Stop the rain in the night  
Stop the rain in the night  
(Stop the rain in the night)  
Stop the rain in the night  
Hold me

I need you

It's now or never

Stop the rain in the night

Stop the rain in the night

Stop the rain in the

(Stop the rain in the night)

(Stop the rain in the night)

(Stop the rain in the night)

(Stop the rain in the night)

Stop the rain in the night
