

The Ghost is here – Skycycle

Another scary night
Another spooky fright
And you just might be in danger
Oh, the ghost is here
And it's always a fake
The ghost is here
And there's no reason to shake
The ghost is here
Oh give us a break
It's fake
Another ghoul attack
She's breathing down our back
So we're making tracks for the exit
Oh, the ghost is here
And it's a crook in a suit
The ghost is here
And he's protecting some loot
The ghost is here, oh give him the boot
He's fake
It doesn't matter where we go, we know
A ghost is gonna show and so
We look for the bogus
We look for the scam
And every time the ghost is a sham
We see an eerie light
And if the mood is right
Then you just might sight a monster
Oh the ghost is here,
It's our frightening task
To face our fears and the creep in the mask
So the ghost is here
There's no reason to ask
He's fake
Oh, the ghost is here
And it's a crook in a suit
The ghost is here

And he's protecting some loot
The ghost is here, oh give him the boot
He's fake
Another scary night
Another spooky fright
And you just might be in danger
Oh the ghost is here
It's our frightening task
To face our fears
And the creep in the mask
So the ghost is here
There's no reason to ask
He's fake
