

Space – Slavko Kalezic

Linen is covered with feathers
Wet dreams, wild nightmares, I surrender
Come in to me from within
We can be as one in the sin
The spaceship is ready to blow
Drunk in love I'm gonna explode
Be my Bonnie, we'll mix and match with Clyde
Let's explore this galaxy of stars
Let's explore this galaxy of stars
I have my suit on, no need to worry
Give me your body, let's write a story
Our body language
Rocket to the stars
I have my suit on, no need to worry
Give me your body, let's write a story
Our body language
Rocket to the stars
Show me your super powers,
I'm Venus and Mars of the hour
I'll protect you if you come my way
Let's soar through the Milky Way
I have my suit on, no need to worry
Give me your body, let's write a story
Our body language
Rocket to the stars
I have my suit on, no need to worry
Give me your body, let's write a story
Our body language
Rocket to the stars
I have my suit on, no need to worry
Give me your body, let's write a story
Our body language
We're taking off
We're taking off
We're taking off
In space we can be as one
