Gimme The Light – Solid Strangers

I'm sittin' alone
Remember of the good times
Heartache grew away
Feeling the cold inside
Back me
Turn me on
You took my breath
Gimme the light
Take my hug
Let's spend the night together
So hold me tight
You'll be my love forever
I feel your love and fire deep inside
So c'mon
Gimme the light
Take my hug
Let's spend the night together
So hold me tight
You'll be my love forever
I feel your love and fire deep inside
So c'mon baby
I'm feeling the pain
Remember of the good times
Your face in my mind
Feeling the cold inside
All day insane
My life was gone
Then you came
So cool and fresh
You turn me on
You take my breath
Gimme the light
Take my hug
Let's spend the night together
So hold me tight
You'll be my love forever

I feel your love and fire deep inside
So c'mon
Gimme the light
Take my hug
Let's spend the night together
So hold me tight
You'll be my love forever
I feel your love and fire deep inside
So c'mon baby
Gimme the light
Take my hug
Let's spend the night together
So hold me tight
You'll be my love forever
I feel your love and fire deep inside
So c'mon
Gimme the light
Take my hug
Let's spend the night together
So hold me tight
You'll be my love forever
I feel your love and fire deep inside
So c'mon baby
