

On My Own – Stan Bush

He hurts to find he failed the test
Knowing that you gave your best
As your friend I'll never
Let you down
I know you didn't mean to leave me
On my own
Alone tonight
I'm gonna gather my strength
Gonna find the power
Then you know I'm gonna make it right
On my own tonight
I'll find that inner light
I can be strong
Alone
On my own
It's after dark you fear the most
To face alone your private ghosts
As your friend I'll never
Let you down
I know you didn't mean to leave me
On my own
Alone tonight
I'm gonna gather my strength
Gonna find the power
Then you know I'm gonna make it right
On my own
Alone tonight
I'll find that inner light
I can be strong
Alone
On my own
