

# Otherworldly – STARSET

You're like an angel's song  
I'm on my knees waiting for the sound  
Stuck in a world gone wrong  
So lift me up, I'll never let you down  
Light like a brand-new day  
Surreal and astounding  
The site of a mystery  
But I'm here on the ground  
Bring me to the edge and let me stay  
Pull me in, I'll never push away  
Searching for the words that I can say  
How it feels when you're with me  
(Otherworldly, otherworldly)  
Send a light then, I'll be waiting  
(Otherworldly, otherworldly)  
I come alive when you are with me  
(Otherworldly, otherworldly)  
Far away from all the mayhem  
(Otherworldly, otherworldly)  
At the speed of light and beauty  
Supernatural  
Like an oracle  
When darkness starts to call  
You'll find me after all  
A face that could emanate  
A stare like a spotlight  
If you guide me into your space  
I'll be there at the first light  
(Otherworldly, otherworldly)  
Send a light then, I'll be waiting  
(Otherworldly, otherworldly)  
I come alive when you are with me  
(Otherworldly, otherworldly)  
Far away from all the mayhem  
(Otherworldly, otherworldly)  
At the speed of light and beauty

I wanna become lucid  
Clear just like a window  
I tried too hard to open up  
And show you what's behind it  
But you didn't need to hear me  
'Cause you were supraluminal  
Knew me without an uttered word  
You always seemed to know me  
An ethereal feeling  
That I cannot describe  
The way that I feel you  
Something that I cannot hide  
How you illuminate  
In a profound way, I feel your space  
I can't explain this place you're taking me  
(Otherworldly, otherworldly)  
Send a light then, I'll be waiting  
(Otherworldly, otherworldly)  
I come alive when you are with me  
(Otherworldly, otherworldly)  
Far away from all the mayhem  
(Otherworldly, otherworldly)  
At the speed of light and beauty
