

Stratosphere – STARSET

Stratosphere

Stratosphere

I saw what you emanate

I held my hand to take

A piece of it with me

Passed through me like gamma rays

It burned my soul to see

A thing with

Such beauty

Stratosphere

Floating in your stare

Take me far from here

Are you even there?

I miss the way you felt to breathe

And it fills me with despair

Stratosphere

You fill

My lungs

And take away

The air

I climbed to where the sky fades

'Til

I'm a castaway

Til

I asphyxiate

I caught your eyes, bird of prey

And I can't cauterize

The open wound you made

Stratosphere

Floating in your stare

Take me far from here

Are you even there?

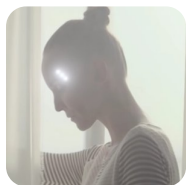

I miss the way you felt to breathe

And it fills me with despair

Stratosphere

You fill

My lungs
And take away
The air
(I occasionally think how quickly)
(Our differences worldwide would vanish)
(If we were facing a threat)
(From outside)
(This world)
Stratosphere
Stratosphere
Stratosphere
Floating in your stare
Take me far from here
Are you even there?
I miss the way you felt to breathe
And it fills me with despair
Stratosphere
You fill
My lungs
And take away
The air
You fill
My lungs
And take away
The air
You fill
My lungs
And take away
The air
