

# Something about the sunshine – Sterling Knight i Anna Margaret

Wake up to the blue sky  
Grab your shades  
And let's go for a ride  
Breakfast by the ocean  
We'll do lunch at Sunset & Vine

Every day's a dreaming California  
Every night the stars come out to play  
Wish that I could always feel this way

There's something about the sunshine, baby  
I'm seeing you in a whole new light  
Out of this world for the first time, baby  
Ohhh its alright

There's something about the sunshine  
There's something about the sunshine

In Hollywood we're rocking  
In Malibu we hang out and chill  
It's all about the shopping  
From Melrose to Beverly Hills

Everywhere's a scene  
And now we're in it  
I don't wanna paint this town alone  
When I see you smile I always feel at home

There's something about the sunshine, baby  
I'm seeing you in a whole new light  
And it's a breeze with the palm trees swaying  
Oh, its alright

Now that you're here  
It's suddenly clear

Sun coming through I never knew  
Whatever I do it's better with you  
It's better with you

There's something about the sunshine baby  
I'm seeing you in a whole new light  
Out of this world for the first time baby (yeah)  
Oh, its alright (its alright)

There's something about the sunshine baby  
I'm seeing you in a whole new light  
Out of this world for the first time baby (ohhh)  
Oh, its alright (its alright)

There's something about the sunshine, baby  
I'm seeing you in a whole new light  
And it's a breeze with the palm trees swaying  
Oh, its alright
