

# Meadow – Stone Temple Pilots

Rise and shine, Clementine  
There's just something about you  
Do you think you could dance  
Cause I'm willing to stay fade away  
And ride on

Sing a song, make it long  
Cause there's nothing without you  
All I need is a chance  
And I'm willing to play, night or day  
And ride on, on and on

And we're all  
Yeah, we're all just killing time and having fun  
Here in the sun

When there's nowhere to hide  
Yeah we're gonna sip on  
As we drink from the fire  
That was burning in the meadow  
With luck in our eyes  
And the stains of our souls  
We can drink from the fire  
That was burning in the meadow

You'll be mine, Clementine  
'Cause I can't live without you  
I've got something to say  
But you've already made  
Made your way, so ride on  
When you're gone, here's a song  
I'll be thinking about you  
I'll remember your ways  
And the thrills that you gave, gave away  
So ride on, on and on

And we're all  
Yeah, we're all just killing time and having fun  
Here in the sun

When there's nowhere to hide  
Yeah we're gonna sip on  
As we drink from the fire  
That was burning in the meadow  
With luck in our eyes  
And the stains of our souls  
We can drink from the fire  
That was burning in the meadow

I gave you all you gave another  
I hold the wheel, you light the flame

When there's nowhere to hide  
Yeah we're gonna sip on  
As we drink from the fire  
That was burning in the meadow  
With luck in our eyes  
And the stains of our souls  
We can drink from the fire  
That was burning in the meadow
