

Freak – Sub Urban

Welcome to our freak show,
come meet my monsters
Oh, such a fine collection of stranger things
My patience running thinner
on this melting clock
Cerebrum jailed with thoughts
most would consider rot
To think you're any different from an animal
A creature sick as you should be put down
But I can't help myself
Welcome to our freak show,
come meet my monsters
Oh, such a fine collection of stranger things
Please don't hide
Your imperfections nature
Took two tries
To make the man in white
No, I don't mind
You are a beauty
Not temptation
You're my creation
Freak o' Friday night
Know I'm the main attraction
Basket acrobat
They wanna see some action
Tinkering with my design
Twist and tame my feral mind
Play with me 'til
You've found another toy
Let me be your freak show,
I could be your favorite monster
Rattle my whole cage,
remind me why I can't be fostered
Let me be your freak show,
I could be your favorite monster
Lock me up, don't let me out

'cause you know (I can't help myself)
Welcome to our freak show,
come meet my monsters
Oh, such a fine collection of stranger things
You're wasting, you're wasting all
Of your time finding the
cure when there's no disease
You're wasting, you're wasting all
Of your talent on an
audience who sees a freak
Can't help myself
Welcome to our freak show,
come meet my monsters
Oh, such a fine collection of stranger things
