

I Help You Hate Me – Sunrise Avenue

I know you wanna see me falling out
Falling out the window
I know you wanna see me crashing down
Crashing with my plane
Baby, I'm way too young to die
But I'll help you get over me

I broke many hearts throughout my days
Yours was the hardest one to face
Though, I've never been a saint
I still love you every day
Just not the lover kind of way
I know it's somewhere in me down
This won't be easy on you now
You could cry and you could grieve
Then you will get over me
And you turn your life around, 'cause

I know you wanna see me falling out
Falling out the window
I know you wanna see me crashing down
Crashing with my plane
Baby, I'm way too young to die
But I'll help you get over me

I'll help you hate me
I'll help you hate me

I know you wanna see me falling out
Falling out the window
I know you wanna see me crashing down
Crashing with my plane
Baby, I'm way too young to die
But I'll help you get over me

I'll help you hate me

I'll help you hate me

I'll eat fast food every night
So I'm not easy on the eyes, yeah
I change my profile picture too
I took an ugly one for you
To help you say goodbye
To help you let go
I'll wear the t-shirt you hate
Let my hair grow
Not in the good kind of way
I stay at home
Make sure you never see me
Smile again, 'cause

I know you wanna see me falling out
Falling out the window
I know you wanna see me crashing down
Crashing with my plane
Baby, I'm way too young to die
But I'll help you get over me

I'll help you hate me
I'll help you hate me

I know you wanna see me falling out
Falling out the window
I know you wanna see me crashing down
Crashing with my plane
Baby, I'm way too young to die
But I'll help you get over me

I'll help you hate me
I'll help you hate me

Oh yeah
I'm helping you hate me
But I can't let you break all my bones
'Cause baby, I'm way too young to die
But I'll help you get over me

I'll help you hate me
I'll help you hate me
