

# One (Monster & Infinity) – SuperM

Yeah

You hear me walk into your town, right?  
Sounds right  
Feel that rumble in the ground, right?  
Don't lie

I'm the one, better run  
If you wit' it, oh  
Then you're done, done, done

Dark cloud blocking out the sun  
I ain't scared, got me feeling kind of numb

Yeah, it's a problem I know  
Tell me somethin' I don't know  
What you got? I got more

Keep it coming with that reload  
Ain't no stopping me though, I go  
And I lose control

Gogael deureo  
Hear it talking to me  
In my body, from the shadow waking up, oh, oh  
Bring the battle, gimme what I want, alright

No games, watch me deliver every time  
Catch me in the latest driving spaceships  
One way, we going up ain't no decline  
Landing in the matrix tryna break it  
Hands up nareul neukkyeo bwa, yeah  
All the way to infinity, yeah  
Nopge We going up there's no decline  
So if you're aiming anywhere, aim high

Nallyeo  
Make 'em drop, yeah  
Not enough, level up

You wanna see how I get down like, yeah, right  
Uri umjigimeun geodaehae kkeunna

Break you with that left, with that right  
Make you feel the fire  
You ain't got the moves or the fuel  
That's the bottom line

Think you're ready for the monster, monster  
No turning back  
If you wanna face me, no

Tried to warn ya, we was coming in  
Got no time for all this arguin', oh no  
It's way beyond control

Gogael deureo  
Hear it talking to me  
In my body, from the shadow waking up  
Bring the battle, gimme what I want, alright

No games, watch me deliver every time  
Catch me in the latest driving spaceships  
One way, we going up ain't no decline  
Landing in the matrix tryna break it  
Hands up nareul neukkyeo bwa, yeah  
All the way to infinity, yeah  
Nopge We going up there's no decline  
So if you're aiming anywhere, aim high

Neowa naega hanadoen sesange  
I'll never stop  
No, I'm not playing no games  
Face to face and don't run away  
Think you're ready for the monster, monster

Never seen a mountain too big for me  
I'm gon' be alright  
Got forever on my mind

No pressure but we pressin'  
So you better run  
We bring another dawn  
We've only just begun

No games, watch me deliver every time  
Catch me in the latest driving spaceships  
One way, we going up ain't no decline  
Landing in the matrix tryna break it  
Hands up nal neukkyeo bwa, yeah  
All the way to infinity, yeah  
Nopge We going up there's no decline  
So if you're aiming anywhere, aim high
