

Paper – Svala

You're under the water,
Trying to pull me under
I reach for you
I reach for you
You can throw it all at me
I won't give you up
I can handle all your pain
Take it as it comes
I love you right
But you make me feel like
Paper
You cut right through
I'm stuck like glue to you
Paper
Your darkness pulls
I lose control again
Drawing every bit of my truth
Color me in with your blue
Paper
You cut right through
A thousand words for you
I know I wasn't a part of your plan
I know you think that you're being a man
Tell me to leave you alone
Tell me I would be so better off
But you don't understand
I can't leave you
Baby
I can't leave you
But you make me feel like
Paper
You cut right through
I'm stuck like glue to you
Paper
Your darkness pulls
I lose control again

Drawing every bit of my truth
Color me in with your blue
Paper
You cut right through
A thousand words for you
Paper
You cut right through
I'm stuck like glue to you
Paper
Your darkness pulls
I loose control again
Drawing every bit of my truth
Color me in with your blue
Paper
You cut right through
A thousand words for you
