## My Foolish Friend – Talk Talk

Lay your hands into my hand I've been rude I don't care what you do Some recall is not enough I've seen a few Creeping like you do My foolish friend Don't try to live my life Upon this weary line My foolish friend Don't tell me if I'm right Teenage tears the saving grace Of this fool But no one's watching you Save this mirror for your face There are two No matter what you choose My foolish friend Don't try to live my life Upon this weary line My foolish friend Don't tell me if I'm right When I can really rebel Yes I'm really saddened My foolish friend Don't try to live my life Upon this weary line My foolish friend Don't try to live my life
