

# Straight and Narrow – Teenage Fanclub

You were on the straight and narrow  
You were going round the bend  
And looking for a friend  
Well you took off optimistic  
But you landed on your head  
And now you're walking dead  
What did you find  
In the maze of your mind  
Did it feel like the end of the road  
Cigarettes they burnt your fingers  
You were weak and you were sore  
But still you had to score  
When they found you in the basement  
You were face down on the floor  
And you could take no more  
What did you find  
In the maze of your mind  
Did it feel like the end of the road  
Didn't need a second warning  
When you saw the others die  
You couldn't even cry
