

# You – Ten Sharp

It's alright with me  
As long as you  
Are by my side  
Talk, or just say nothing  
I don't mind  
Your looks never lie  
I was always on the run  
Finding out  
What I was looking for and I  
Was always insecure  
Just until I found

Words often don't come easy  
I never learned  
To show the inside of me oh no my baby and you  
Are always patient  
Dragging out  
What I try to hide  
I was always on the run  
Finding out  
What I was looking for and I  
Was always insecure  
Until I found, oh oh

You, you are always on my mind  
You, you're the one I'm living for  
You, you're my ever lasting fire  
Oh oh (You're my always shining star)  
(You're my always)

The night  
Always a good friend  
A glass of wine  
And the lights down low  
And you  
Lying beside me

Me full of love  
And filled with hope

You, you are always on my mind  
You, you're the one I'm living for  
You, you're my ever lasting fire  
You (You're my always shining star)  
Always on my mind  
You, you're the one I'm living for  
You, you're my ever lasting fire  
Oh oh (You're my always shining star)  
(You're my always)  
(You're my always shining star)  
(You're my always shining star)  
(You're my always shining star)
