

Gothic Girl – The 69 Eyes

You can see her
Whenever it rains
From rome to new orleans
Dancing on the graves
Burden by the heart she loves her
Sunglasses after dark
And every single day her
Little life falls apart
She's out to look
So macabre and alone
She's close to hook
On her dying
Just like a gothic girl
Lost in the darken world
My lil' gothic girl
Darkerside jewel are your razor cuts
For real - baby
You can see she's
On her road to ruin
Stigmata from crucifixion
On her pale white skin
Tribal pagan art she loves her
Tattooed egyptian mark
And every single day her
Love will tear us apart
She's out to look
So macabre and alone
She's close to hook
On her dying
Just like a gothic girl
Lost in the darken world
My lil' gothic girl
Always so dramatic, Christ
I want you, gothic girl
Lost in the darken world
My lil' gothic girl

Darkerside of jewel are your razorcuts
For real, baby
My lil' gothic girl
Lost in the darken world
My lil' gothic girl
Always so dramatic, Christ,
I want you, gothic girl
Lost in the darken world
My lil' gothic girl
Darkerside of jewel are your razorcuts
For real, baby
