Gothic Girl - The 69 Eyes

You can see her

Whenever it rains

From rome to new orleans

Dancing on the graves

Burden by the heart she loves her

Sunglasses after dark

And every single day her

Little life falls apart

She's out to look

So macabre and alone

She's close to hook

On her dying

Just like a gothic girl

Lost in the darken world

My lil' gothic girl

Darkerside jewel are your razor cuts

For real - baby

You can see she's

On her road to ruin

Stigmata from crucifixion

On her pale white skin

Tribal pagan art she loves her

Tattooed egyptian mark

And every single day her

Love will tear us apart

She's out to look

So macabre and alone

She's close to hook

On her dying

Just like a gothic girl

Lost in the darken world

My lil' gothic girl

Always so dramatic, Christ

I want you, gothic girl

Lost in the darken world

My lil' gothic girl

Darkerside of jewel are your razorcuts
For real, baby
My lil' gothic girl
Lost in the darken world
My lil' gothic girl
Always so dramatic, Christ,
I want you, gothic girl
Lost in the darken world
My lil' gothic girl
Darkerside of jewel are your razorcuts
For real, baby
