

Black Days – The Rasmus

Black days, black days
Come back and find me, again
Show me your face
You know I've missed you old friend

I don't need a reason
I just want to feel something
You know that you can hurt me
Everytime I let you in

So come around and save tonight
Keep me with the lightning strike

Black days, black days
Come try me I've got bad blood
Inside me show me your strength
So heavy take me old friend
I'm ready
Black days, black days
Black days, black days

Battles and pains
I've got my sadness in chains
Bear with me, faith
Hold on before it's too late

I don't need a reason
I just want to feel something
You know that you can hurt me
Everytime I let you in

So come around and save tonight
'cause you and me are lost for life

Black days, black days
Come try me I've got bad blood

Inside me show me your strength
So heavy take me old friend
I'm ready
Black days, black days
Black days, black days

So come around and save tonight
'cause you and me are lost for life

Black days, black days
Come try me I've got bad blood
Inside me show me your strength
So heavy take me old friend
I'm ready
Black days, black days
Black days, black days
