On Fire - The Roop

I'm a human, not a stone
I can make a change and go
Wherever I want to
They told me maybe I'm too old
But there's fire in my soul

The heat is getting higher
I feel that I'm on fire
The world is my desire
I feel that I'm on fire
(Ooh-ooh-ooh)

There's no doubt I'm strong enough To reach the state I've dreamed of It's gonna happen And I will do what I can Just to be a better man

The heat is getting higher
I feel that I'm on fire
The world is my desire
I feel that I'm on fire

Can't believe it took so long
To take an action and move on
No one can stop me
Through the clouds there comes the sun
And I'm ready for some fun
Uh

La la la la la
La la la la la
La la la la la
La la la la la la
La la la la la
La la la la la

La la la la la

(Ooh-ooh-ooh)

The heat is getting higher
I feel that I'm on fire
The world is my desire
I feel that I'm on fire
