

Don't Break My Soul – Thomas Anders

Love is a fire burning down in my soul
(my soul)
Taking me higher, taking me out of control
(out of control)
Let's take it easy, let's make a brand-new
Start (start, start)
You are the lady, the lady of my heart
Don't break my soul, don't break my heart
A magical touch, not far apart
Don't break my soul in paradise
Let's make the night just twice as nice
Don't break my soul, baby,
Don't break my heart
We've got tonight, let's make a start
Out of control, baby, don't break my heart
All deep inside, don't break apart
Love is a thunder, turning me inside out
(inside out)
Making me wonder, "What is it all about?"
(Is it all about?)
Life is for living just like the morning sun
(just like the morning sun)
Baby, we'll make it, we're free,
And we are young (and we are young)
Don't break my soul, don't break my heart
A magical touch, not far apart
Don't break my soul in paradise
Let's make the night just twice as nice
Don't break my soul, baby,
Don't break my heart
We've got tonight, let's make a start
Out of control, baby, don't break my heart
All deep inside, don't break apart
Don't break my soul, baby,
Don't break my heart
We've got tonight, let's make a start

Out of control, baby, don't break my heart
Hold me inside, don't break apart
