

For Your Love – Thomas Anders

When I'm with you I'm shakingsome
My heart is tangled my hold is tight
For the one I love
Like I never was before
Come dancin' ice persuading blues
My heart is hard just can't persist
You are the one I've been always looking for
For your love
That you're so sure to go
Just to prove I will hold on to you
Your sweet love
Touch it sleeping inside
You're my day and my night
For your love
(Your love)
For your love
You know you've got a hold on me
You know you've got me where I wanna be
Now it's the time
For you to give your love to me
When to the heart good times will come
When we make our love strong
Together as one
We can keep our love alive
For your love
That you're so sure to go
Just to prove I will hold on to you
Your sweet love
Touch it sleeping inside
You're my day and my night
For your love
(Your love)
For your love
Just for your love
When to the one good times will come
When we make our love strong

Together as one
We make our love survive
Now it's the time for love
For your love
