

Love Of My Own – Thomas Anders

You, you can make a dream come true
You can help me find the magic inside
Mmm, girl, my lonely nights are through
And all I wanna be is here with you
Spent my life looking for you
And now I'll just adore you
I found a love of my own
Never run away
I found a heart and a home
Where I'm gonna stay
I wanna love you, baby
(Wanna love you, baby)
I found a love of my own
Love of my own
You are the mystery of night
You're the one I carry deep in my heart
Mmm, there's one thing I want you to know
I never, never, ever let you go
Spent my life looking for you
And now I just adore you
I found a love of my own
Never run away
I found a heart and a home
Where I'm gonna stay
I wanna love you, baby
(Wanna love you, baby)
I found a love of my own
Love of my own
(Baby I'm in love, yeah, so in love)
(Will you be, will you be my baby?)
I've got a love of my own
Never run away
I found a heart and a home
Where I'm gonna stay
I've got a love of my own
Never run away

I found a heart and a home
I'm begging you to stay
Love of my own
