

You Are My Life – Thomas Anders

I'm hoping, but the time you hear these words
You'll have a change of heart along the way
I love you, and it's no ordinary want
It sends me every time I hear your name
I welcome every day as precious and brand new
No day will go to waste, sharing it with you
You are my life, you're all I am
(You are my life)
I can't live without you
You're the one who understands
You are my life, you're all I am
(You are my life)
My life, can be yours again I'm holding all
The years we had up to the light
The falling out we might affair just face
Believe me, that's just one sentemental night
(Sentemental night)
That's so much more than all fun mistakes
Mmm more, we cam welcome every day as
Precious and brandnew
And no day will ever go to waste,
If I come sharing it with you
(No day)
