

Lifeline – Thousand Foot Krutch

Cut me like those words you throw
Console me when you want control
Roll me in those lies you've told
But I won't play these games no more and

()

I'm feeling like just letting go

()

It's taking everything I know

()

The wheels keep burning

I'm about ready to blow

When I get angry, I feel weak

And hear these voices in my head

Telling me to fall beneath

'Cause they'll make everything okay

How did I get here?

Everything's unclear

I never meant to cause you pain

Give me a reason I can believe in

I need it all this time

Send me a lifeline

(INSTRUMENTAL)

Wave if it makes you look good

Smile when you feel like you should

It's hard not to treat this like I could

Heaven help me,

It's overwhelming

The wheels keep burning

I'm about ready to blow

When I get angry, I feel weak

And hear these voices in my head

Telling me to fall beneath
'Cause they'll make everything okay
How did I get here?
Everything's unclear
I never meant to cause you pain
Give me a reason I can believe in
I need it all this time
Send me a lifeline
When I get angry, I feel weak
And hear these voices in my head
Telling me to fall beneath
'Cause they'll make everything okay
How did I get here?
