

Vote for Love – Tiamat

We've been soaked in acid
Always praised the downfall
The sound of cadent wings
It's a wonder we're standing tall
But in the truth of the morning glory
And the fear in our wishing well
We're on to another story

Aaah

Aaah

It's about time we all get out
And vote for love

It's about time we all get out
And vote for love

It's about time we all get out
And vote for love

It's about time we all get out
And vote for love

We are white zombies
Chained to our own demise
Decades of sleepwalking
No light's shining in our eyes
We've painted all doors bible black
We never gave up without a fight
If there's light we'll claim it back

Aaah

Aaah

It's about time we all get out
And vote for love

It's about time we all get out
And vote for love

It's about time we all get out
And vote for love

It's about time we all get out
And vote for love

Time to claim it back

Time to claim it back

Time to claim it back
Time to claim it back
It's about time we all get out
And vote for love
It's about time we all get out
And vote for love
It's about time we all get out
And vote for love
It's about time we all get out
And vote for love
