

# Apollo – Timbelle

Like a bullet in my chest,  
You're written, bound and etched  
Forever in my mind  
We are fading in our hands  
Lost somewhere in a wasteland  
Not knowing up from down  
But when the walls are caving  
And the world keeps turning  
We got the love, we got to love  
Now I will never let you go  
All the words won't make me fold  
It is never easy  
I'll follow you, Apollo  
Now I will never let you go  
Give it time and we will grow  
Ain't no fun in easy  
I'll follow you, Apollo  
I'll follow you, Apollo  
I wear my heart on my sleeve  
You do the same for me  
When autumn comes around  
But when the walls are caving  
And the world keeps turning  
We got the love, we got to love  
Now I will never let you go  
All the words won't make me fold  
It is never easy  
I'll follow you, Apollo  
Now I will never let you go  
Give it time and we will grow  
Ain't no fun in easy  
I'll follow you, Apollo  
I'll follow you-u  
So don't pull the rug from underneath us  
We're in trouble babe, but we got the love  
Don't pull the rug from underneath us

Crashing down fast, as fragile as glass  
But what are we now if we never tried?  
What are we now?  
I will never let you go  
Give it time and we will grow  
It is not supposed to be easy  
Now I will never let you go  
Give it time and we will grow  
Ain't no fun in easy  
I'll follow you, Apollo  
I'll follow you, Apollo  
You, Apollo  
It is never easy  
I'll follow you, Apollo  
I'll follow you, Apollo  
You, Apollo  
It is never easy  
I'll follow you, Apollo  
I'll follow you, Apollo
