Stop Loving You – Toto

Reflections in my mind Thought I can't define My heart is racing and the night goes on I can almost hear a laugh Coming from your photograph Funny how a look can share a thousand meanings Well intented lies Contemplainting alibies Is it really you or is it me I'm blaming? A distant memory flashes over me Even though you're gone I feel you deep inside

Dance beneath the light with that look in your eyes

I can't stop loving you Time passes quickly and chances are few I won't stop till I'm through loving you girl

There a window in a heart I've tried to look through from the start You're never really sure what someone else is thinking Someone's broken something new Another altered point of view Just a certain someone's conscience playing I had it in my hand I did not understand What lives inside the wind that cries her name Trying to catch a shooting star What seems so close can't be far I'm living in a dream that's never ending Dance beneath the light with that look in your eyes

I can't stop loving you Time passes quickly and chances are few I won't stop till I'm through loving you girl Dancing with that look that's in your eyes

I can't stop loving you Time passes quickly and chances are few I won't stop till I'm through loving you girl

I can't stop loving you Time passes quickly and chances are few I won't stop till I'm through loving you Loving you Yeah yeah yeah Loving you I wonder when I'll stop loving you Yeah
