

Back To Zero (Skyborne Remix) – Trance Classics & Denise Rivera

Love, Just hold me
One more time, then i let it go
The need to know, what was real
Everything i asked for is given back
I am down back to zero
Never thought id need this place, again
The tracks along my dreams
Lead me back to the beginning
Back down, to zero
I am down back to zero
Never thought id need this place, again
The tracks along my dreams
Lead me back to the beginning
Back down, to zero
