

I feel the love – Tritonal feat Ross Lynch

I've gone too many nights,
Chasing the shadow of your silhouette

Moving just to survive,
All that I wanted was to start again

Stumbling through the crowd,
Feet lifting off the ground looking for you

Washing my fear away
Standing here face to face nothing to lose

I won't look back now

I Feel The Love
I wanna get to know you
I Feel The Love
Let the past
Burn into the sun
I Feel The Love
I really want
To show you now

I Feel The Love
I wanna get to know you
I Feel The Love
Let the past
Burn into the sun
Can't get enough
So much I want
To show you now

It's not over tonight,
Stay in this moment we can hide away

Cos the're gonna

Turn on the lights

But we're burning bright

No we'll never fade

Stumbling through the crowd,

Feet lifting off the ground looking for you

Washing my fear away

Standing here face to face nothing to lose

I won't look back now

I Feel The Love

I wanna get to know you

I Feel The Love

Let the past

Burn into the sun

I Feel The Love

I really want

To show you now

I Feel The Love

I wanna get to know you

I Feel The Love

Let the past

Burn into the sun

Can't get enough

So much I want

To show you now

I Feel The Love

Can't Get Enough

Feel The Love (I Feel The Love)

I Really Want (I Really Want)

To Show You Now (To Show You Now)

I Feel The Love

I wanna get to know you

I Feel The Love
Let the past
Burn into the sun
Can't get enough
So much I want
To show you now
