

GIANTS – True Damage

Wonhaneun ge eolgure boyeo

I'm trouble and you're wa-wa-wa-wanting it

(Wa-wa-wanting it) yeah (yeah), yeah

Moving too fast life is moving in slow-mo

I'm a god better ask if you don't know

Homie better put your pride aside

I'm a Benz and you're more like a Volvo

Your best stuff looks like my worst

Synapses fire and burst

Got the whole crew with me

'bout to deal damage

You know we ain't average

I ain't gonna say this again

But this is my time, better look in my eyes

I'm a genius in disguise

Wear my heart on my sleeve

And you forced to oblige to a king in his prime

Everybody get in line

Sit back, watch the stars align

I finesse like my life on the line

Was a diamond in the rough and now I shine

Ay... no one can stop us

They'll try but they won't

Ay... nada nos puede parar, oh no!

We're wide awake now, our eyes are wide open

We're running this world, we keeping it turning

We're living like Giants (yea Giants)

We're bigger than Giants (we Giants)

Oh oh oh oh

Sleeping Giants, sleeping, sleeping Giants

Shutting it down, been underground
Now my people all up in this place
Spinning this thing
Gold on my ring, royalty up in my veins
I'm loco, think I'm so cold
I stay stunting, ain't no goin' back
Now they ask where QiQi's at
I'm like you can't hang with that

Ssodajyeo bichi meolge dwae nuni
Meomchujin ana once we go
Nalkaroun nallo modeun beeo
Ppalli dallyeo neon! motttara wa~
True Damage we do it
True Damage boyeojulge mweodeun shwipge
Igadeunjideun
My crew make the beat drop

Ay... no one can stop us
They'll try but they won't
Ay... nada nos puede parar, oh no!

We're wide awake now, our eyes are wide open
We're running this world, we keeping it turning
We're living like Giants (yea Giants)
We're bigger than Giants (we Giants)
Ya thought that we were weak, but we coming right back
This time ya gonna see how we do it like that
We're living like Giants (yea Giants)
We're bigger than Giants (we Giants)
Oh oh oh oh

Sleeping Giants, sleeping, sleeping Giants

I keep on shattering time
I might just leave you behind
Homie you stuck on rewind
You should quit sleeping on mines
You got your back on recline

When I damage your delicate spine
Please don't act all shy and surprised
They be like... They be like!
What you mean?
What is your winning scheme?
I got a giant team, big as my self-esteem
Run it back, run it back, running man
They think they go hard I'm like come again
You run out of time when I'm bustin' in
While you stumbling,
I got this blade in my hand for your punishment

We're wide awake now, our eyes are wide open
We're running this world, we keeping it turning
We're living like Giants (yea Giants)
We're bigger than Giants (we Giants)
Ya thought that we were weak, but we coming right back
This time ya gonna see how we do it like that
We're living like Giants (yea Giants)
We're bigger than Giants (we Giants)
Oh oh oh oh

Sleeping Giants, sleeping, sleeping GIANTS
