## **Voices – Tusse**

There's fire in the rain But we'll get up again We're thousand miles apart But we'll overcome I'll never let you down World is turning us around But I feel it in my heart Let's make a brand new start Can't stop us now, forget the haters Get up and live and make it matter There's more to life so go ahead and Sing it out Can you hear a million voices Calling out in the rain? You know we got a million choices So go get out and let it rain A million voices, voices A million voices, voices A million voices, voices A million voices There's fire in the rain And I can feel your pain Painting all the scars in The colors of change Don't let them hold you down Don't let them hold you down Go shooting like a star The star you are Can't stop us now, forget the haters Get up and live and make it matter There's more to life so go ahead and Sing it out Can you hear a million voices Calling out in the rain? You know we got a million choices So go get out and let it rain

Can you hear them? A million voices, voices Can you hear them? A million voices, voices Can you hear them? A million voices, voices Can you hear them? A million voices Can you hear them? Can you hear them? Can you hear a million voices Calling out in the rain? You know we got a million choices So go get out and let it rain Can you hear them? A million voices, voices Can you hear them? A million voices, voices Can you hear them? A million voices, voices Can you hear them?

A million voices
