

# Blood & Fire – Type O Negative

Yeah, I always thought we'd be together  
And that our love could not be better  
Well with no warning you were gone  
I still don't know what went wrong  
You don't know what I've been through  
Just want to put my love in you  
No more nights  
Of blood and fire  
No more nights  
Of blood and fire  
All those special memories  
Now I bleed for you - burn for me  
Perhaps I was just dreaming  
When I think these things had real meaning  
You don't know what I've been through  
Just want to put my love in you  
Love eternal  
Lust infernal  
Bleeding, burning  
Needing, yearning  
Moi cherie  
I see your face in every flame  
With no answers  
I have only myself  
To blame  
Of all the women  
That I have known  
Well they're not you  
I'd rather be  
Alone  
No more nights  
Of blood and fire  
No more nights  
Of blood and fire  
No more nights  
Of blood

# No more nights Of fire
